Key Stage 1: Reading Progression of Skills and Strategies

In Key Stage 1, children will be exposed to the eight strategies that help us to enjoy reading using this systematic/sequential approach. This will be in the form of a combination of listening comprehension activities and reading comprehension activities, dependent on the ability of the child, and based on teacher assessment. These strategies must be explicitly introduced during their designated term. To support in the implementation of these strategies, the decoding strategies introduced in EYFS will be regularly referred to, and explicitly taught where necessary.

Key Stage 2: Reading Progression of Skills and Strategies

A systematic/sequential approach to the teaching and learning of the 8 strategies that help us understand and enjoy reading. These strategies must be introduced during their designated term.

These strategies can be delivered through whole class teaching, guided group work, independent activity or a mixture of the three. The amount of time spent on these strategies will be based on teacher assessment of the children's needs, with some children in the class possibly needing more time on a strategy than others. Strategies should always be referred to in order to support new learning and can be revisited throughout the year as a result of class teacher AfL.
